Undersigned, Rabbi P.A. Meyers of Antwerp Belgium, declares that **Vos Bulk Logistics Oss by the Netherlands** for dry bulk food transport and food logistics is under his supervision. All subsidiaries of Vos Logistics and cleaning stations are under kosher supervision. However, all documentation is being centralized by the head office in Oss, the Netherlands. Trailers and tankers that were used the last three times for kosher products and/or that were thoroughly cleaned, are kosher for the transport of dry kosher products. This on condition that the cleaning certificate specifies the trailer number, the former kosher loads and date of cleaning. Kosher transport of dry foods in bulk trailers or closed bags is according to the kosher rules.

The following dry products are considered as kosher products: flour, potato starch, corn starch, corn, sugar, rice, salt, coffee, calcium carbonate, citric acid, phosphates, cacao.

Included in Vos Logistics subsidiaries are the tank cleaning stations in **Oss the Netherlands** and in **Saint Fons France**. These cleaning stations are kosher certified and cleaning is done according to the kosher rules and made available for the transport of strict kosher products.

This kosher certificate is signed on 1 December 2022 and valid until 1 January 2024.
